# Professional Advance Career Education Program (PACE)

## What is PACE?

The Professional Advance Career Education (PACE) Certification Program provides an online medical assistant diploma that is designed to give students a comprehensive understanding of the field and equip them with the skills needed to succeed as a medical assistant. The program runs for 12 months whether full-time or slightly longer if part-time and comprises both theoretical and practical coursework. It includes topics such as human anatomy and physiology, medical terminology, laboratory procedures, pharmacology, surgical technology, clinical skills practice etc. The curriculum is designed to stimulate students' awareness of, motivation for, and commitment to the need for continuing education to achieve and maintain competency in the field.

## Why Choose PACE?

- Comprehensive in depth 12 month Medical Assistant diploma program
- Designed by 2 physicians who understand the needs of health care providers
- Virtual instruction to learn at your own pace with a built in externship to apply skills and knowledge in a real healthcare setting
- Successfully prepares students for national CCME certification exam

## Course Highlights

- Anatomy and Physiology
- Medical Terminology
- Medical Office Management
- Medical Ethics and Legal Principles
- Basic Life Support Certification
- Clinical Procedures
- Pharmacology and Injections
- EKG Training
- Phlebotomy

# Advance Literacy and Transformative Health (HEALTH)

## What is HEALTH?

The Health Education to Advance Literacy and Transformative Health (HEALTH) Program is our online health education subscription platform, a comprehensive hub that brings together a wealth of knowledge and expertise from esteemed professionals across diverse health fields. This online comprehensive health hub is designed to give community members the knowledge and skills they need to make positive changes in their lives through health literacy. Our platform provides the community with unlimited access to an extensive library of pre-recorded 20-30 minute tutorials and lectures, delivered by experts who are at the forefront of their respective disciplines.

## Why Choose HEALTH?

- Flexible and convenient learning
- Wide range of health topics
- High-quality instructional content
- Interactive learning experience
- Access to expert faculty and support
- Continuous learning and updates
- Cost-effective education
- Cultivate health advocacy for yourself and family
- Community and networking opportunities
- Lifelong learning and personal growth

## Subscription Highlights

- Improving Health Literacy
- Navigating insurance plans
- Preparing for Clinic Visit
- Health prevention and maintenance
- Age-Appropriate Immunizations
- Chronic Disease Management

# Continuing Health Education (CHE) Courses

## What is CHE?

The Continuing Health Education (CHE) program is designed specifically for health professionals, encompassing a wide range of disciplines within the healthcare industry. With a commitment to maintaining and enhancing knowledge, skills, and performance, this program offers a series of one-hour online lectures on various health topics. The comprehensive curriculum delves into areas such as clinical practice, public health, epidemiology, medical research, patient safety, and quality improvement. Emphasizing the practical application of these subjects in real-world scenarios, the CHE program equips participants with the tools and insights necessary to excel in their respective fields. Moreover, the program goes beyond educational activities, providing opportunities for professional development and networking, allowing health professionals to engage with like-minded individuals and foster valuable connections within the industry.

## Why Choose CHE?

- Provide health professionals with knowledge and skills to improve clinical practices.
- Discuss influences of race, culture, diversity in healthcare settings

## Course Highlights

- Patient and Family Centered Care (12 CHE)
- Improving Health Equity (12 CHE)
- Error in Race Based Calculations (12 CHE)
